OBJECTIVE

Creative professional with 3+ years of experience, looking to make meaningful connections and create engaging experiences as part of a dedicated and passionate team.

SKILLS

Web Design | Front-End Development | User Interface | User Experience | Visual & Interaction Design | Illustration
Adobe Creative Suite | HTML | CSS | Javascript | JQuery | Python | InvisionApp | Proto.io | Microsoft Office

EXPERIENCE

Kodak Alaris | Interaction Designer

- Used Illustrator, Photoshop, and Sketch to wireframe and create visual mockups
- Used InvisionApp and Proto.io to prototype mockups
- Researched existing trends, competitive applications, and its users
- Wireframed and visually designed the desktop app, web sites, and mobile/tablet-friendly sites
- Worked with small, fast-paced teams of designers and developers and provided feedback to create the best possible UX

SMP Corp | Marketing Intern

- Managed the website through Joomla
- Redesigned the mobile app with Photoshop and Illustrator
- Researched tools such as Ionic to develop the mobile app
- Coded emails for event invites in Brackets using HTML and CSS
- Wrote and proofread copy for news and events

Magnani Caruso Dutton | Design Intern

- Researched and compiled data of existing trends and competitors in InDesign
- Created moodboards, iconography, and various graphics with Illustrator and Photoshop
- Worked with other interns to redesign an internal project
- Designed webpages for main clients such as Discover and Samsung
